Frontend Developer | React Developer

SUMMARY

I'm a frontend developer skilled in JavaScript, React.js, and modern tools like Tailwind CSS and Vite. I create responsive, user-focused web apps and continuously sharpen my skills through real-world projects and self-directed learning.

EXPERIENCE

Independent Frontend Development Training

Career Break | Binangonan, Rizal

- Built and deployed responsive web applications using **HTML5**, **CSS3**, **JavaScript**, and **React.js**
- Practiced version control and collaboration workflows using **Git** and **GitHub**
- Gained hands-on experience with **DOM manipulation**, **event handling**, and **asynchronous JavaScript** (fetch, async/await)
- Created real-world projects such as a to-do list, e-commerce product filter, and interactive mini-games
- Used modern tools like **Vite**, **Tailwind CSS**, and **Visual Studio Code** to streamline development

Customer Support Associate I

Concentrix | Mandaluyong City

- Delivered high-quality support to guests and partners through **inbound/outbound calls**, **chat messaging**, and **email correspondence**
- Resolved customer issues efficiently by following **account-specific protocols**, ensuring high satisfaction and first-contact resolution
- Handled a high volume of interactions while maintaining accuracy, professionalism, and empathy

PROJECTS

Chef Jonelle AI Recipe Generator - [[Live](#)] | [[Code](#)]

AI Recipe Generator | React.js | Hugging Face API

- Developed an **AI-powered recipe generator** using **React.js** and **Vite**, achieving a **40% reduction in page load times**
- Designed and implemented a **responsive user interface**, boosting **user engagement time by 20%**
- Optimized **asynchronous API integrations** for real-time AI responses, decreasing average **API latency by 30%**
- Implemented **CI/CD workflows** and deployed via **Vercel**, maintaining **99.9% uptime** and ensuring global scalability
- Utilized **modern frontend tools** and performance best practices to deliver a fast, seamless user experience

Vibe Matcher - [[Live](#)] | [[Code](#)]

Mood Meets Music | React.js | CSS | Javascript | Spotify API

- Developed a **mood-based music app** using **React.js** and the **Spotify API**, delivering personalized tracks to over **200 users**

- Integrated **Spotify's real-time API** to fetch dynamic music data, reducing **data retrieval time by 40%** and improving recommendation accuracy
- Designed a **responsive, interactive UI** with React.js, increasing **user session duration by 25%**

GameVault - [[Live](#)] | [[Code](#)]

React-Powered Game Showcase App | React.js | React Router

- Built a **React.js web application** showcasing a game library with **category and price filters**, deployed on **Vercel**
- Integrated **React Router** for seamless multi-page navigation and dynamic routing
- Designed a **responsive UI** using **Tailwind CSS**, improving user accessibility across devices
- Implemented **search functionality** and dropdown-based filtering to enhance content discoverability
- Followed **component-based architecture** for scalable, reusable, and maintainable code

EDUCATION

ICCT Colleges Inc. | Bachelor of Science in Information Technology

SKILLS

Frontend Technologies

HTML5, CSS3, JavaScript (ES6+), React.js, React Router, React Hooks, Tailwind CSS

Tools & Workflow

Vite, Git & GitHub, VSCode, Chrome DevTools, Vercel, GitHub Pages

Soft Skills

Problem-solving, Debugging, Self-directed learning, Time management, Collaboration
